

Christophor Harmandarian

Profile

Versatile and motivated computer and communications engineer with a proven track record of delivering high-quality solutions in fast-paced environments. Proficient in building and maintaining complex software systems, adept at resolving critical issues under pressure, and skilled in collaborating with cross-functional teams to achieve project objectives.

Bio & Contact

D.O.B: November 23rd 1992

Address: Dekwaneh, Mount Lebanon

Phone: +961 70 890342

Email: christapor.har@gmail.com

Favourite Books

World Order - Henry Kissinger

The Prince - Niccolo Machiavelli

Crime and Punishment - Dostoyevsky

Pity the Nation - Robert Fisk

The Art of War - Sun Tzu

Professional Experience

Full Stack Developer Nasco Digital Factory February 2022 - Present

- Experience in developing and maintaining web applications using MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Familiarity with modern frontend build pipelines and tools
- Proficient in React.js for building user interfaces and state management (Redux, Context)
- Experience in designing and developing RESTful APIs using Node.js and Express.js
- Designed and implemented complex query aggregation on MongoDB, optimizing database performance and enhancing data retrieval efficiency.
- Developed a comprehensive Storybook containing reusable components tailored for cross-platform deployment,
- Implemented and built an extension to be installed on Red Hat OpenShift Container Platform (OCP) as a RESTful API.
- Executed the integration of Next.js with a headless CMS, Strapi.
- Implemented rule-based logic into Red Hat Decision Manager, optimizing business processes and decision-making within the application.
- Strong ability to resolve critical bugs under high-pressure.
- Collaborate with crossfunctional teams to define, design, and ship new features
- Work in an agile development environment, attending daily standup meetings and providing updates on progress
- Ensure the application is optimized for maximum performance and scalability

Full Stack Development Program Codi May 2021- December 2021

- Back end (NodeJs Express, PHP, Laravel, SQL)
- Front end (JavaScript, React, Bootstrap)
- Server Management (LAMP Stack, Linux)
- Project Management (AGILE Methodology)
- Content Management System (WordPress)
- Tech Redux, Yup, Form, Styled component

Network Engineer Unique Tel IP January 2018 - March 2020

- Set up The Dude to draw and layout maps of client's network, monitor and manage all client's devices on a daily basis.
- Troubleshoot CPE to route traffic in the most efficient manner possible
- Configuring and managing network switches, load balancers, console servers
- 802.1Q VLAN tunneling, inter VLAN routing for VOIP, CCTV, multiple SSID and other routing context.
- Bondings with multiple Wans and mark-connection routing to specific ports and networks.
- Configuring hotspot and creating users with custom limitations such as queue traffic, scheduling, blocking URLs using Proxyserver
- Developed Firewall, NAT modules, proxies for Residential Gateway product

Education

- **Bachelor of Engineering**
Computer and Communication Engineer- Notre Dame University - December 2017
- **Lebanese Baccaalaureate in General Sciences**
Collège des Frères Mont la Salle - Ain Saadeh - June 2011

Proficiencies

SKILLS

- Pogramming Experience: C++, C# , C, Javascript, PHP
- Database Management: MongoDB, SQL
- Web Technologies: Next.js, React, Nodejs, Strapi, Laravel
- DevOps : Red Hat OpenShift, SSO
- Rule Engines: Red Hat Decision Manager
- Excel in meeting tight deadlines, ensuring timely delivery of projects

Languages

- English, Arabic, French, Armenian: Fluent
